To Whom It May Concern:

We have had Rochelle Breckenridge and Creator's Touch at our school for the past year. We have never been more delighted with a program, as the different sessions that are provided are a perfect supplement for the arts education at any school.

Each session that we have had has fit perfectly with our students' and parents' desires and needs. The emphasis on the arts as a proven and viable teaching tool is brought to life through hand-on projects and small group lessons. Our students are captivated during each presentation, and parents and students alike have provided rave reviews. We plan to continue our relationship with the Creator's Touch program for years to come.

Without hesitation I would recommend this program to any school concerned with helping students gain a greater appreciation for the arts, and assisting in supplementing the arts on their campus.

Sincerely,

Rob Clements
Principal
Wickman Elementary School
Chino Hills, CA
